Letter of Introduction for Patrick Dacre

A Computer Helper Dedicated to Supporting Women & Children 1st Efforts

Personal Dedication 2 Women & Children 1st : For many years, and recently more relevantly, the aspects of my work, are more drawn to the support of Women & Childrens agencies in our world. To make this commitment real, my work, as a Computer Helper Without Borders, makes it essential to commit my work to supporting Women & Children 1st Organizations globally. This will also contribute to the greater good, and perhaps bring a better world to my children, and to the 7th Generation. So, with that, I invite you to 'Dedicate' your Pc to Women & Children 1st. AND we will contribute 33% of our Service Fees to an international Women & Children 1st effort of your selection, AND contribute an "In Kind" CheckUp/TuneUp to that organization, to ensure that their Pc's are working at peak efficiency to support their important work.

Here's how you can be part of that campaign:

1. **After just 2-3 months, your Pc will begin to get sluggish and slow down. This is caused by the usual and standard operation of a Pc. The causes are based on how the Hard drive stores information.**

So, we will conduct a CheckUp Estimate, which requires around 8-10 minutes, via our "Over Your Shoulder" service call.

2. **To become a candidate for a Women & Children 1st Pc, simply go to this location online, and download the application from that screen(upper right button). http://tinyurl.com/MothersHelper**
3. **Once you are there, and you have the 'EveryOne Helps' application installed, send a note through the Contact Me, asking for the FREE estimate. We will contact you via email, with some options for the 'Service Call'. We will also arrange to connect with you via phone link, so that we can answer your questions, PRIOR to connecting our computer with yours.**
4. **The 4 steps for the CheckUp are as follows:**
    a. **Take the temperature of your computer**
    b. **Check to see what Trash is on your drive**
    c. **Check Virus Engine to see it's engaged**
    d. **Check for File organization**
5. **Once we have that assessment, we will provide you a time estimate for your TuneUp. This is billed at $1/minute, and can be purchased with any major credit card, or through our PayPal account.**
6. **Typically, once the TuneUp is complete, your Pc will run between 20 and 35% faster.**
7. **At ALL Times, you will be in complete control of your Pc. We are simply looking "Over Your Shoulder" through our Internet connection.**

We hope that you will consider this campaign to 'Dedicate Your Pc 2 Women & Children 1st". We also have a special offer, for 3 annual CheckUps/TuneUps.

For only $108.00 US, we will schedule a CheckUp/TuneUp appointment, which will happen once every 4 months, on schedule. The time required may exceed 30 minutes, yet well will work on your Pc to ensure it runs well, regardless of how much time that requires.

AND, you will receive our "Dedicated 2 Women & Children 1st" Mousepad, as our special Gift. This Mousepad features floral photography from amateurs in exotic locations.

Serving Women & Children 1st in our Time,

Women & Children First Campaigns

Each of Our CheckUp Sessions dedicate 28% of our service fees, to support Women's & Children's Charities.
You can designate this benefit for a local group, OR we can pool this contribution with our international efforts.

Additionally, we also contribute a matching session to support the computer CheckUp needs of those groups.
For a complete list of the charities we support, please send a note to our Chief Encouragement Officer, Patrick, at ib4g2008@yahoo.com
Please share this Invitation with your community. We are thankful for your support and consideration.
